

Product Technical Data Sheet

High Volume Triple Dispensing Pump AHD/300-230

Properties

Housing: Stainless steel

Pump Housing: Glass-Filled Nylon

Motor/Gearbox: Metal/Copper

Other Parts: PVC Spigots and Rollers, Stainless Steel Pins and Spinner Brackets, Electronic PCB.

IP Rating: 55

Supply Voltage/Frequency: 230V 50Hz

Running Current: 1.3A

The Unit should be fused at 3A

PCB Fuse: 2.0AT 20 x 5mm

Capacity: Flow rate of 2.35 litres per minute or 140 litres per hour using a 12.7mm Santoprene tube.

Dimensions: 51 x 24.5 x 24.5 cm

Net weight: 14.5 Kg

Fixing: Wall-mounted at a maximum height of 2m from the drum.

Please refer to tube chart for chemical compatibility.
